

AMV Fencing

- Stylish , cost effective and unobtrusive perimeter security.
- Panels are manufactured from 6mm horizontal and 5mm vertical steel wires. Three pressed profile beams for additional lateral strength are formed within each panel.
- Posts are manufactured from 60mm by 60mm RH section at 3m centres
- Excellent visibility through the fence and the aesthetic appeal makes it suitable for almost any application.
- Tamper proof fixings comprising steel clamps with recessed face and Permacone security fixings.
