

AMZ Paladin Style Fencing

- Stylish appearance due to the integrated “pressed beams” and stripe effect steel wires.
- Equivalent specification to Paladin type fencing.
- Panels are manufactured from 6mm horizontal and 4mm vertical steel wires with a stripe effect. Three pressed beams for additional lateral strength are formed within each panel.
- Posts are manufactured from 60mm by 60mm RH section. Panels are held in place by heavy duty steel fixing clamps and “Permacone” security fixings.
- Excellent visibility through the fence and the aesthetic appeal makes it suitable for almost any application.
