

## High Security Sliding Beam Barrier

- Specialist anti ram sliding barriers are produced from heavy gauge steel, fully welded to form a formidable barrier.
- Designed for the needs of highly secure sites such as military installations or government facilities.
- Electrically operated arms for quiet and reliable operation with maximum strength.
- May be produced in cantilever or tracked versions, up to 16m span.
- AMC are able to provide a supply only, or a full supply and installation service, including associated access control and monitoring systems
